

The **W & J Chambers** business was established in 1935 by Mr. John Chambers. During 1960's the business was taken over by Mr. Will Chambers. During the 1980's, the business was joined by Will's sons all of whom play an active role in the company today.

The business was initially established to produce concrete blocks, but in recent years has expanded into some new product areas: specifically aggregates, sand, ready to use mortar, pre-mixed concrete and pre-packed sand/gravel.

W & J Chambers can now offer a wide range of building and concrete products to an expanding customer base. These new product areas have provided a boost to the company's sales levels.

W&J Chambers Ltd

*Suppliers of Quality
Building products.*

Blocks

W&J Chambers use their own reserve of Sand & Gravel to manufacture a high specification of Concrete Blocks. Our company also imports Pumice

from the Mediterranean to manufacture a Light-Weight Thermalite Block.

These can be made in any

of our Standard concrete blocks sizes. Our concrete blocks can be delivered to your site with our well maintained fleet of lorries complete with off-loading cranes.

Pre-Mix Concrete

We were awarded the BSI Kite mark No KM 83020/06 in 2004 for our Ready Mixed Concrete.

To achieve this prestigious mark our product and service was, and is

currently independently evaluated to ensure we

meet the stringent

British, European and

International quality standards. Ready Mixed

Concrete is produced at our head office and Coleraine depot and can be delivered or collected rang-

ing from small to large quantities.

Sand & Gravel

Incorporating all types of sand:

Building Sand
Plastering Sand
Concreting Sand
Dead Sand

All of our washed sands are produced in our sand pit in Moyagh, Burndennett, Co Tyrone. Sand can be collected or delivered from our Moyagh site. We can also produce Coloured Sand and have colour charts which match most colours.

Our Aggregates are also produced at Moyagh Sand Pit. Aggregates are sized from 10mm, 20mm, 40mm to hard-core (100-150mm) and can be delivered in any size of load.

W & J Chambers Ltd also has sourced coloured gravels from all over Ireland, ranging from riverbed to natural Granite. They are available in pre-packed 40kg Bags, 1 ton bulk bags, and can also be sold loose by the ton.

Pre-packed sand and gravel can be purchased from our Drumahoe and Coleraine depots. We have our own in house pre-packing plant which bags Sand, Gravel and coloured aggregates in 40kg bags. These can be bought per bag or by the pallet (30 bags on pallet).

Also in stock is bagged cement available to buy in 25kg bags or by the pallet(80 bags on pallet)

Mortar

Our Pre-mixed mortar has been specially designed for use with concrete block, brick laying and plastering.

Mortar is produced at both our depots and can be delivered to your site in mortar tubs or disposable bags.

A full range of coloured mortars are also readily available.

Concrete Pipes & Flagstones

We keep in stock a full range of concrete OG Drainage Pipes, everything from 150mm to 600mm in plain or perforated form.

We also keep 900mm, 1050mm, 1200mm, 1350mm and 1500mm Well liners complete with lids.

Always in stock are a good range of coloured and pre-cast concrete flagstones, kerbs garden edges etc to create the exterior look you desire.
